

AMERICAN LIVES LOST IN SINKING OF BRITISH SHIP

FEAR U-BOAT ISSUE AGAIN IS REVIVED

DESTRUCTION OF THE BRITISH STEAMER MARINA BY GERMAN SUBMARINE STIRS WASHINGTON.

WITHOUT A WARNING

First Reports Indicate That Vessel Was in Transport Service of British Government—Save 34 Out of 104 of Crew.

[BY ASSOCIATED PRESS.] London, Oct. 30.—A private telegram received at the American consulate this afternoon from Copenhagen says that a number of Americans were drowned when the British steamship Marina was torpedoed by a German submarine.

In reply to an inquiry from the American embassy, the admiralty said today that 59 Americans in the crew of the Marina.

Revives Submarine Issue. The destruction of the British transport Marina by a German submarine, without warning, has revived the issue of American lives in the hands of the submarine attack on the British freighter Rowenmore today by American forces.

Public opinion in Norway at present is greatly excited and popular feeling toward Germany is far from friendly. Ship owners have decided not to permit their vessels to sail to Russian ports in the Arctic, and the Russian insurance company will take no risk on ships or cargoes with such destination.

First reports, incomplete and transmitted by the American consul as "provisional," caused some uneasiness.

The report of the destruction of the Marina referred to the ship as "British horse transport." It is turned out that she was in fact in the service of the British government.

Although no American lives were lost in the submarine attack on the Rowenmore and the ship offered her own status if she made attempt to escape, officials who were disturbed by the report that the boats were abandoned after they had cleared from the abandoned ship.

Sunk Without Warning. Dispatches to the state department from the Marina had a mixed crew of British and Americans, and that she was sunk by gunfire without warning.

Consul Frost, at Copenhagen, has transmitted that if the information he has received would be made at once to determine the status of the Marina and whether any of Germany's pledges to the United States have been violated.

Save 34 Out of 104. London, Oct. 30.—An American embassy today received a report from the British consulate at Copenhagen that the British steamship Marina, 5,200 tons, had been torpedoed without warning.

Only thirty-four members of the crew of 104 have been picked up and landed at Copenhagen. Mr. Frost is now procuring affidavits from survivors.

A report on the sinking on Oct. 26 of the British steamship Rowenmore was made to the American embassy today by Mr. Frost. Five Filipinos today by Mr. Frost.

Several of them have given Mr. Frost affidavits stating that the submarine shelled the boats while they were being lowered and after they were clear of the ship.

Fifty Americans in Crew. Newport News, Va., Oct. 30.—There were fifty Americans on the British steamship Marina, reported torpedoed without warning in today's dispatches from London, when she sailed from Newport News.

They were signed here as housemen. They were given their homes as the local agents for the owners of the Marina say cable Glasgow for Newport News, leaving Oct. 25, in ballast.

Norwegian Ship Sunk. Copenhagen, Oct. 30.—The Politiken says the Norwegian steamship Tylfina, in a service of the crew of the Norwegian steamship Stenshaug, which was torpedoed, sinking within five minutes.

Subsea Warfare Arouses Norway

Christiania, Oct. 10. (Correspondence of the Associated Press.)—Never before during the war has the Norwegian press so unanimously expressed the resentment aroused in Norway by the last steps in the German submarine warfare. The Orbladet called it piracy, and says it is the general opinion that the German war against merchant ships is directed especially against Norway, adding:

It is fact that this continual torpedoing of Norwegian ships deprives Germany of friends in Norway.

Asks Government to Act. The Tidende says bitterness has been provoked in Norway by the destruction of Norwegian property and lives of Norwegian sailors in the Arctic ocean, and vehemently urges the government to do something to protect lives and property.

The Verdens Gang asserts Germany has substituted for international law an old recognized principle, the principle of power as the basis of its warfare, recognizing no other standard of morals than what its own interest dictates. Other papers say the German government's secret agents who report the sailing of Norwegian ships are tolerated everywhere, and treated in a friendly manner, while such agents have been expelled from Holland, and that when they attempt to keep ship officers and ship owners posted as to where German submarines are lying in wait on the coast, the censorship suppresses their telegrams, less they might be of use to any enemies of Germany.

Germany Threatens Paper. The Shipping and Mercantile Gazette says that just before the new submarine warfare was inaugurated, agents of the German government appeared in its editorial office and threatened the paper and country because of alleged unfriendly feeling towards Germany.

Representatives in Norway of German newspapers sent to Germany an interview with a "prominent" Norwegian diplomat, who is quoted as having said that Germany is right in its conduct of submarine warfare against the world's shipping.

The interview was given to the press and is being denounced by the entire Norwegian press as fictitious.

Public opinion in Norway at present is greatly excited and popular feeling toward Germany is far from friendly. Ship owners have decided not to permit their vessels to sail to Russian ports in the Arctic, and the Russian insurance company will take no risk on ships or cargoes with such destination.

ACCEPT CABRERA'S STATEMENT DENYING CRITICISM OF U. S.

Matter Will Not Complicate Conference of American-Mexican Joint Commission.

[BY ASSOCIATED PRESS.] Atlantic City, N. J., Oct. 30.—It was indicated today that the American members of the Mexican-American joint commission will take no official cognizance of the statement credited to Luis Cabrera, head of the Mexican commission, in which American government officials were criticized for alleged laxity in dealing with smugglers of arms and ammunition.

Secretary of Interior Lane, head of the American commission, is understood, will accept Cabrera's denial of authorship.

Arredondo Offers Explanation. Washington, Oct. 30.—Acceptance by the state department today of the explanation of Mexican Ambassador Arredondo denying the signature of Luis Cabrera, assailing the American government for permitting aid to reach Villa from this side of the border, was expected to clear the air.

The statement threatened serious friction between the United States and Mexico.

Mr. Arredondo explained the statement was put out by an employee of the Mexican New Bureau, the defunct government's official publicity agency, without the knowledge or consent of either the embassy or Mr. Cabrera.

GREEN BAY CARS HAVE CLOSE CALL

Green Bay, Oct. 30.—John F. Martin, prominent lawyer, and O. C. Bishop, an accountant, narrowly escaped death in the Fox river, when Mr. Bishop drove an automobile into a post, stopping the machine and caught on the edge of the approach.

The draw was turned last night. A taxi with four men whose names were not obtained, ran off the avenue and drove over the river, averting a tragedy. The front wheels of the machine were suspended in the air when the car stopped.

NORTHERN INDIANS SEE WARM WINTER

[BY ASSOCIATED PRESS.] Duluth, Minn., Oct. 30.—Northern Indians, schooled in woodcraft, see a kindly softened winter, and their labors thus are lessened.

Indians base their belief on the corn crop, and the laziness of the squirrels at this time when they should be filling their tree caches. In addition, the muskrats are dilatory in building their habitations; the fur-bearing animals have thin coats now when they should be sitting out in their thickest overcoats, and bark on trees is loose.

HARVEY SEES VICTORY

Editor Submits Estimates Showing That Republican Majority Will Place Hughes in White House.

[SPECIAL TO THE GAZETTE] East Liverpool, Ohio, Oct. 30.—The last week of Charles E. Hughes' presidential campaign opened with his speech here today. From East Liverpool the candidate will go to Stubberville, where his program called for a half hour stop. He will speak at Zanesville late today and Columbus tonight.

Mr. Hughes will spend one day in Ohio and two in Indiana, before turning to New York state, where he will close his campaign.

Col. Harvey's Prediction. New York, Oct. 30.—Four years ago Colonel George Harvey guessed wrong as to only one state in his election forecast. In 1908 he was only seventeen electoral votes out of the way, and in 1904 only twenty-two.

April of the present year, before a single state had indicated a preference for the nominee, he closed an analysis of the political situation, under the heading "Nobody for Hughes." But "rightly or wrongly, wisely or not, the will of the people will prevail, and Charles E. Hughes will be the next republican candidate for president of the United States."

In the North American Review to be published tomorrow, Colonel Harvey predicts the election of Hughes as certain. It details as follows:

"Electoral votes essential to a choice, 266. We predict that Mr. Hughes will carry these states:

California	13
Connecticut	7

SIX CLOSE TO DEATH WHEN CLOGGED PIPE BACKS UP COAL GAS

South Franklin Street Family Near Asphyxiation This Morning in Home Choked With Fumes.

Escaping gas from a coal stove came very nearly asphyxiating a family of six this morning. Mr. and Mrs. Alexander Blase, their three children and Mrs. Blase's sister, Miss Meta Jaeger, were overcome. They reside at 338 South Franklin street.

Mrs. Blase this afternoon said that all had recovered sufficiently to be able to be about. Some were still a trifle ill from the effects, but otherwise there was no danger of serious results.

It was Mrs. Blase that first discovered the gas. Her youngest child, aged five, gave first evidences of something wrong when he awakened about 6:15 o'clock and complained of being sick. He called his mother and she arose to get him a glass of water. Leaving her bedroom she felt the floor, overcame her husband arose and a moment later he, too, was stretched out on the floor. He, however, had sufficient strength to crawl to a door and open it after realizing the cause of the trouble.

Mrs. Blase said that an extra hot fire had been made yesterday afternoon and last evening to offset the dampness and cold. She thought that the damper in the pipe had been closed too far when the family retired. A clogged chimney, she said, may also have had something to do with the backing up of the gas.

Mrs. Blase said that the gas had been in position this morning. Soft coal was used.

Pendies, a resident of Chicago, was shot in the chest by a bullet from a .38 Smith & Wesson revolver as she was about to enter the factory where she was employed. Hot words followed, according to witnesses, and then the shooting.

BRITISH AID A FAILURE

British Lack of War Strategists Means Her Ultimate Defeat, Says German General—Germans Continue to Overrun Rumania.

[BY ASSOCIATED PRESS.] Berlin, Oct. 30.—Field Marshal Von Hindenburg is quoted by the Overseas News Agency as follows:

"The French show great tenacity, but they are exterminating lives by their method of fighting. All their tenacity will be of no avail, for in the end there will be none of them left. This fate of the French nation is owing above all else, to the British."

If the British ask next spring for one more offensive campaign, they will rob France of the remainder of her army, and her national strength.

JOHN J. COMSTOCK IS FOUND DEAD SUNDAY

Passed Away During Night at His Room in the Hotel London—Former Sheriff and Ex-Chief of Police.

John J. Comstock, former sheriff of Rock county, ex-chief of police and former alderman from the Second ward, passed away sometime Saturday night or early Sunday morning at his room in the Hotel London, where he has made his home for several years past. For months past Mr. Comstock has been suffering from a cancerous growth, and it is believed that he became discouraged of any ultimate relief, as indications point to his death having been hastened by the turning on, accidental or otherwise, of the gas jets in his room.

His remains were found Sunday morning when he did not arise at his usual time, and his friends in the city immediately notified and his son and daughter communicated with. News of his demise came as a shock to his acquaintances in the city, where he has so long made his home and whose esteem he held in high place. His sad malady, from which he apparently seemed unable to obtain relief, made his death all the sadder, as both county and city officials, in whatever capacity he was chosen, he served as a faithful servant of the public, and among his Masonic and Elk brethren he was held in high regard.

John J. Comstock was born in New York state in 1848, but moved to Wisconsin in 1850. He first located in Waubesa county, where his father cleared a farm. At the age of twenty-one Mr. Comstock moved to Whiteside with his family. In 1865 he moved to Janesville and married Laura Wheelock of this city. For many years he aided his father in the management of a truck garden at the old homestead in the Second ward, serving part of the time as constable of the ward.

In 1879 he was elected sheriff of the county, serving until 1881. Many old residents of Janesville will remember that it was during this period that the famous Sandy White murder case occurred, when a mob was only prevented from lynching the murderer by the utmost caution and courage on the part of the officials.

Following his term of sheriff he served again as ward constable, and later as alderman. From Dec. 27, 1904, until September, 1905, he was the chief of police of this city. He retired from public life a number of years ago, after many years of service for the city.

For some time Mr. Comstock has been suffering from cancer, and last January was operated upon. Later in July, he had a second operation, and returned to his home in August. Since that time until his death his health has been very poor.

Mr. Comstock is survived by one son, Byron W. Comstock, an engineer on the Northwestern road, living in Waubesa, and by one daughter, Mrs. Emma C. Wisler of Los Angeles, California.

The funeral will be conducted by the Masonic order, of which Mr. Comstock was a prominent member. His body will lie in state in the Elks lodge rooms before the funeral. This order will attend the funeral in a body. The time of the services is still unknown as yet, as the funeral hour will depend upon the arrival of Mrs. Wisler.

LAST REGISTRATION POSSIBLE TOMORROW

Polls Will Be Open From Nine Until Eight—Voters Should See That Their Names Are on Lists.

Tomorrow is the final registration day before the general election, Nov. 7. Just a week away, Janesville voters whose names are not on the polling lists are advised to register tomorrow or experience having to be sworn in on election day.

City Clerk J. P. Hammariund this morning announced that in compliance with state statutes the Janesville polling places would be open from 9 a. m. to 8 p. m. tomorrow.

MADISON AUTOMOBILE STOLEN SUNDAY NOON

The Janesville police department yesterday were advised to be on the lookout for a Buick five passenger touring car, Wisconsin license No. 45,924, taken from the business section of Madison during the noon hour Sunday. No trace of the machine was found here. "Safety First" the police warn Janesville automobile owners.

TIME FOR PEACE, SAYS MME. HEMPEL

Frieda Hempel, the famous German opera singer, has just returned to this country with the information that Germany is sick of the war. "We are sick of the war and all its horrible consequences, and we believe that our enemies are just as weary of it," she says. "Now is the most acceptable time for President Wilson to use his good offices to bring about peace."

GREAT OPPORTUNITY IN Y. M. C. A. FIELDS

Local Association Receives Request for Physical Directors—Excellent Salaries Paid.

An excellent example of what may develop from a membership in a Y. M. C. A. and an active participation in the work in the gymnasium, is shown in the great demand for physical directors, which has caused the central organization of the "Y" to send to the local association an urgent request for any knowledge of men capable of all these positions.

At the present time there are a number of associations which are greatly retarded because they have no physical director; these must have such men and are willing to pay good salaries for them, salaries which range from \$1,000 to \$1,500 per year. There are also a large number of assistantships open at \$600 to \$1,000 a year. In addition men for these positions are needed in foreign countries. More and more the schools of the country are calling for physical directors. Thus in substance is the knowledge gained from the appeal of the International Y. M. C. A. for such men.

Acquaintance with the work of the associations and especially of the physical departments comes quickly to those who have memberships and who follow the various activities of the department, said S. A. Boyd, physical director of the local association. "Many a man will find himself well-fitted to engage in this work after he has been in close touch with Y. M. C. A. work for a time. Our leader classes are organized for the particular purpose of training men to enter in upon this work. Here is a fine opportunity for young men to get into an interesting, healthful life. The mere joining of the association may open up a totally new career to many."

W. C. T. U. Meeting: The local union will meet Wednesday, Nov. 1, 3 p. m. with Mrs. Frank Humphrey, 802 St. Mary's avenue. Mrs. Ellen Copp, L. L. E. will conduct the lesson in law. The topic is "Private Communications." The mothers' program will be in charge of Mrs. H. Palmer. All are welcome.

NAVY RECRUITING OFFICER IN CITY

Announced That Traveling Recruiting Party Will Be in City November 13 and 14.

C. W. Mozley, U. S. navy, from the navy recruiting station, Milwaukee, is in Janesville in advance of a traveling recruiting party, which will be in the postoffice for two days, November 13-14, to examine and enlist men for the U. S. navy. Young men who have a special aptitude for clerical work are sent to the yeoman school. A man with knowledge of electricity, or a telegraph or wire clerk, can be sent to the telegraph school. A man with a special aptitude for machinery may be sent to the machinists' school; those with knowledge of an artificer trade may be sent to the artificers' school. Young men enlisting from here as apprentice seamen are sent to the naval training station at Great Lakes, Ill., for training before being sent to the battleships. There are many different trades in the navy, and a man is usually assigned to the work for which he is best fitted.

Naval officials feel that satisfactory progress is being made in the campaign to recruit the service to augmented strength. A net gain of approximately 1,900 men a month has been recorded, and it is expected that 12,000 of the 16,000 increase in enlisted personnel recently authorized will have been added at the close of the fiscal year.

Predict Increase in Cost of Flour
With Constant Advance in Wheat Market Retail Flour Prices Jump Daily.

The huge increase in the price of wheat, flour prices have ascended to an almost unheard of level. For the past few days flour has been retailing at \$2.50 to \$2.75. The opening of the week finds wholesale prices up to \$10.90 a barrel and even more. This means that retail dealers will have to raise their prices. The merchants are estimating that flour would be selling at \$3.00 a sack in a day or so.

There is at present hardly an article on the market that has not increased in price materially during the last few weeks. Even such things as chocolate have advanced. A rise of two cents per pound is reported for cocoa. Canned corn has gone up from ten to twelve and fifteen cents.

Now, there is no salvation in sight. Crop shortages, lack of cars, war orders and strikes all enter into the increase in prices. The producers or middlemen are forcing the producers or middlemen down, or until some of the present bad conditions have been averted.

The fresh market is exceptionally good for this time of year. It shows no change in price from Saturday. Prices Paid Producers—Ton lots: Straw, 6.00@7.00; hay, \$10@12; oats, 40¢@45¢ bush; new ear corn, \$2.25@2.75; wheat, \$1.05@1.10; rye, \$1.00@1.10.

It Must Be So!
Feminism, like socialism, is difficult to confine within the boundaries of a formula. Mr. W. L. George, in "Woman and Tomorrow," has done what is possible in this direction. Feminism, he says, is, broadly, the furthering of the interests of women, philosophically the leveling of the sexes, and specifically the social and political emancipation of woman.

HOMEKEEPERS' DAY FOR PHILOMATHIANS

Special Program of Interest to House-keepers Given at Meeting on Saturday.

The Philomathian club had a program especially for housekeepers on Saturday afternoon at the home of Mrs. C. A. Thompson. Roll call was made by the hostess, who was assisted by Mrs. C. A. Thompson. The program was both interesting and instructive, and was well attended. Mrs. C. A. Thompson gave a paper on meat substitutes, which was both interesting and instructive. She said that meat is not as nutritious as it is often made out to be, and that it is often more expensive than it is made out to be. She recommended beans, split peas, lentils, macaroni, and other substitutes. She also gave a paper on the use of the refrigerator, which was also both interesting and instructive. She said that the refrigerator is a very useful appliance, and that it should be used properly. She gave some tips on how to use the refrigerator, and on how to keep food fresh. The meeting was a success, and was well attended. Mrs. C. A. Thompson was the hostess, and was assisted by Mrs. C. A. Thompson. The program was both interesting and instructive, and was well attended.

Mrs. C. A. Sanborn gave a valuable paper on government bulletins as an aid to the housekeeper. She said that the supply of subjects was inexhaustible, and that it was the work of experts in their several departments that were of great merit. She spoke especially of their work in the kitchen as a workshop, and how to make it convenient, comfortable and easily taken care of. The "Cure of Food in the Home" was also mentioned. "Meats and Their Values," "Foods for Young Children," and "School Lunches" were spoken of for their timely interest to home-makers. Some bulletins were like condensed cook books in the recipes given. Of these, "Potatoes," "Vegetables," "Corn Products," "Fruits and Canning" were especially valuable.

A vacation story, postponed from the last meeting, was given by Mrs. Munn. It was an account of a motor trip to Red Cedar lake, stopping at Waupaca and Stanley, Wis., on the way. Part of her exciting experiences were, sleeping in a tent, catching her first fish, finding a pink lady-slipper plant in the woods. In all they traveled 1,200 miles without mishap and arrived safely home.

The business meeting was presided over by the vice-president, Mrs. Farrington. The next meeting will be held on November 11 at the home of Miss Young.

SCHOOL NEEDS.

One of the essentials in a well organized and governed community is a good school system. In this respect Janesville stands well to the fore front. However, in respect to the buildings that house these schools it is sadly deficient. The unusual crowding of the high school this year has clearly demonstrated the necessity of either an addition to that structure or the erection of a new modern, up-to-date building. It may seem a bit startling to conservative citizens who feel that what was good enough when they were boys and girls for their needs is good enough now with a little patching up now and then, but the abandonment of the present high school building and the erection of a new one would be real, genuine economy. Schools and school requirements have increased so rapidly in the past decade or two that old methods will not do in the scheme of mental equipment of our boys and girls.

By abandoning the old building the term is used merely to indicate that this structure could be converted into other school uses. It could become a central grade school. If you please, housing the students at several of our smaller schools all under one roof. It is not a new idea this centralization of schools; it is the scientific method of handling the educational system. It has been thoroughly tested, tried from all angles, and proven most successful. The schools thus vacated could be sold to advantage and the funds thus raised utilized in the construction of the new high school building.

It is not a dream this thought of constructing a new and up-to-date, entirely modern building, for the higher education of our boys and girls; it is a practical thought. It is a possibility and should be carefully considered by those who make school affairs a careful study. Several years ago our schools were inspected, informally, it is true, by an expert in hygienic and sanitary conditions. He reported the morale of the schools most excellent, but shook his head and stated openly that if called upon to make a formal report on conditions he would have to condemn several of the buildings for many reasons.

Since then some changes have been made but they are inadequate to the increasing needs of the students. Just as essential as being first in the classes is healthful surroundings for the student. Sanitary conditions, lighting facilities, especially heating and ventilation, essentials to good productive brain work. It is time that some radical action be taken by those in charge of this branch of the city affairs. We have an excellent school system, the teachers all prepared for new buildings, so why not start on the high school, erect a new structure for that department, utilize the vacated building for grade schools, abandon some of the obsolete structures now used for these schools, and it will be a step in the right direction.

The disuse of torchlight processions is supposed to indicate a desire for intelligent political campaigns, but it may be due more to the disin-

clination of the average voter to walk more than a mile.

JUST A WEEK AWAY.

A week from tomorrow is election day. Once every four years this country is torn asunder by political strife. In 1912, the republican party, split by chisms and isms, went down in a crushing defeat before the demagogic onslaught. Today, reunited, with differences settled, the G. O. P. gives promise of redeeming the past by a victory at the polls where the individual voter decides the momentous question of who shall be our president and which party shall control the policies of the nation. It is every man's duty to go to the polls and register their own individual choice. Whether he believes that Wilson kept us out of war or that Hughes is a stronger, safer and saner man to conduct the destinies of the state, he should register his choice. This is no time for shirkers, and slackers need not expect any sympathy if they fail to cast their ballot as their opinion dictates.

That the Hughes sentiment is growing is most certain. That right here in Wisconsin the state issues are enough to bring out a full vote, is apparent to all who keep in touch with political affairs. Philipp has made Wisconsin an ideal business man's governor. He seeks re-election to continue his work of reforming the legislature. To do this he needs a legislature in accord with his views, it is just as essential as it is to re-elect Philipp. His enemies, political enemies, are more bitter than personal ones oftentimes, and are leaving no stone unturned to defeat him and his scheme of saving the taxpayers' money by wise legislation and conservation of the state's business. In this same connection it should be noted that good government of a county is essential in the general order of affairs and that the republicans of Rock county have nominated clean, reliable and honest candidates who deserve your vote at the polls. In fact it is pretty safe to state that if you vote the straight republican ticket you will make no mistake, but whether you believe this doctrine or not it is your duty to go out and vote on Tuesday, November 7th.

KID FRANKS.

Tomorrow is All-Hallowe'en and one of the numerous occasions which Young America celebrates by the spirit of mischief. In many places Hallowe'en is observed. But the doings traditionally appropriate to the season are not restricted to any one date or season. Formerly it was the custom in many places to remove gates, rig tick-tacks on houses, throw corn against windows, on this mystic night when spirits are supposed to be abroad. Now many boys start in celebrating Hallowe'en as early as the fall as it is dark after supper.

The idea seems so worthy of commemoration to Young America, that in many places the exercises are also conducted for July Fourth and for May day. It is rather difficult to deal with this imphish spirit that fills the youngsters on these cool and kinky fall evenings. Ringing doorbells is considered highly unsatisfactory unless the householder emerges and pursues them for a hundred yards. The job is not considered well done unless the aforesaid householder is thoroughly angry and reports the incident to the police. That marks his house for several years, as a dwelling that needs thorough and persistent attention. People who show no annoyance by these doings are not much molested. The spirit of youth can be forgiven a little noise. It won't hurt us a bit to be disturbed over our peaceful reading in the arm chair. We'll feel younger for smiling at it. But when property is injured, a blind ripped off or a window broken, it's a different matter.

It is usually possible to locate fairly closely the authors of positive mischief. They have covered too wide a territory for their identity to be concealed. A timely word to the parents is better than more strenuous measures. When property has been injured and work and trouble made for older people, it is time for one of the historic sessions in the wood shed.

AUTOMOBILE SUITS.

The number of cases growing out of automobile accidents is one of the features of our court work. They make up a big part of present day litigation. It is sobering to the careful motorist as he thinks of the liability that increases as the streets become more crowded.

The number of automobile owners who carry automobile liability insurance is becoming very large. It is one of the more important items of owning a car today. You may run many years and not need it. But in case of mishap, it saves a great many crushing losses.

It is automobile accidents, it is very hard to get at the truth. The occupants of both cars are excited and their stories rarely agree. The thing happens so quickly and unexpectedly that few bystanders can give a coherent account of it. Usually the damages are charged up to the man who was running fast. And in most cases he is the one to blame.

It is a wonderful sight to see a democratic apol-binder come into a state like Wisconsin and praise the republican candidate for the United States senate and say nothing about the democratic aspirant. However, that has been done right here in Wisconsin and now some voters are wondering which is the democrat.

Wilson, La Follette and Williams is the slogan of the ardent supporters of our senior republican senator. Fine talk is it not? You can not use the old simile, "a rose between two thorns," but you might think about three donkeys looking longingly over the fence at the apple tree.

In preparing for winter do not neglect to arrange for the early spring flowers and do not plant them right under the spot where you plan to have your ash heap this year.

However, the man who complains most bitterly about the cost of living is usually the same one who can't spend time to read the newspaper advertisements.

The colleges are supposed to stand for liberal culture, but it takes more than liberal culture for the college president to get the money to run his institution on.

The fact that the price of an article has not been raised for a fortnight is

considered a sufficient reason for putting it up again.

A Mexican election is ordered for Oct. 29. The returns could just as well be given out in advance as after they are counted.

X. Tractor, the chiropractor, was busy at the feet of Rasher O. Bacon, the millionaire, grave designer, when Oddsen Ends, the riddle fiend, knacker and the office door. "Bacon—take a seat," called X. Tractor. "You'll find all the latest magazine on the ante-room table—The Monthly Chiropractorian, The Foot-pad Quarterly, Bunion's Weekly—take a seat." "I just want to put a question to you," chuckled Oddsen Ends. And he opened the door and stuck his head in, inquiring: "If you had a vorn—acorn, see?—on your toe, would your foot feel oak—O. K. see?" "Shut the outside door on your way out," said X. Tractor ominously. "One thing more," went on Oddsen Ends suavely. "I'm not exactly in your line, but perhaps you can tell me what answer you would make in refusing a horse chestnut. Would you say 'Neigh'?" "Excuse my back," said the chiropractor to his patient. And rising suddenly, he looked Oddsen Ends in a closet, threw the key away, and finished the job on hand—er, on foot.

THEY'RE FORTY NOW. The girls of twenty years ago Wore clothes quite modest and demure. They'd persist rather than endure To wear what now is all the go, The girls of twenty years ago.

The girls of twenty years ago, Ah, would their styles were back again; How sweet, how simple were they then, And what a joy it was to know The girls of twenty years ago!

The girls of twenty years ago Were modest THEN—but now, alack! When man or daughter turns her back, Just which is which no one can know! These GIRLS—(of twenty years ago).

It's Bunk! Girls. A copy of the Greenpoint Home News arrived at the Times office this week, with a blue penciled paragraph of interest. The article which appeared in the Times some weeks ago, telling how a number of Elmer young women are keeping—secretly, where they expected to get silk petticoats for 10c each, was reprinted in full as a warning to the young women of that city to steer clear of any such schemes.—Elmer (N. J.) Times.

A MOMENT WITH THE MUSE. You know how it is Yourself. The doctrine of the heart, of cheer and sunny smile is very real, but there must sometimes be the tear and sometimes must we feel ill. Sometimes we have the mood to sigh, to beat our chests and cry, Alack! Was ever such a wretch as I? I've scarce a garment to my back. The suit wherein on Sabbath day I'm wont to seek my humble peace is shabby now and most passe. My last year's hat will never do. And more—I am a witless goop, my brains is faded, woe is me, when I would think it loopy the loup. Nobody knows how blue I have a funny-looking face. Oh, I am loved by few, I'm sure. I have no charm, no pleasant grace—am I not poorest of the poor? Could I but say "Here have I wrought a pretty deed this heart is gay for that I came with smiles and brought the cheer that eased it's pain away!" And thus we wall when we are glum, when tups of gloom assail our souls forgetting how there's sure to come an end of little carks and doles. We sob, "These woes are more than I can bear my life's a path of rue. I think I'll lay me down and die." And yet somehow—we never do.

"We thought he married a brunette! His wife is blond," they cried. Brunette is right. So had he, but She died.

TOMMIES DISCARD THE ARMY MUSTACHE

London, Oct. 28.—The long-honored mustache of the English soldier may soon be a thing of the past. By a re-

vised army regulation it is now made optional, and already thousands of the carefully cultivated hirsute adornments have fallen before the advance of the grim reaper—usually some brand of American safety razor. Officers in the army regret the passing of this "mark of the soldier," but the youngsters who have been struggling lately to grow a respectable appearing mustache have breathed a

distinct sigh of relief. It was comparatively easy in the old days to control the army mustache but in the tremendous new fighting machine now marshaled under the Union Jack they had gotten completely "out of bounds" and had begun to border on the ridiculous. So an order has been issued striking out the fateful words "but not the upper lip" from Paragraph No. 1696 of

the King's Regulations. This paragraph originally read: "The hair of the head will be kept short. The chin and under lip will be shaved, but not the upper lip. Whiskers, if worn, will be of moderate length." In an attempt to comply with the regulation, and at the same time to enjoy the freedom of a clean shaven face, upper lip and all, many of the

new subalterns and Tommies developed what is known as the toothbrush mustache. There were such variations as the "tusk," the "flytrap," the "flick sardonic" and the "gingered pest," while some even went so far as to affect a "kaiser twist." There were still others who declined to refer to their attempts at an outward and visible sign of martial valor as anything but "it."

It is a salve to the old soldier that the new rule is merely optional. It would be a great grief to many of the old sergeants-major to part with the splendid, branching twirls they have cultivated over five and twenty years. And then, too, it would be entirely out of the question to annihilate the old tradition at one fell swoop. The change to smooth upper lips

is already strikingly noticeable in London, while at the front there is no doubt has been a great scraping of razors in the first line trenches. It is estimated the new order will result in much time-saving to the officers and soldiers, for it does not require so long merely to "mow" the upper lip as it did to carefully cultivate a bit of downy fluff that would pass muster on inspection days.

Has He Kept Us Out of War?

"HE KEPT us out of war" is offered by the Democratic Party as a statement of a supreme accomplishment. That slogan is false. To accept it without thought or reason is dangerous to the life of the nation.

For months we have been conducting a border war with Mexico. At Vera Cruz we demanded that our flag be saluted. The demand was refused. We landed troops; a battle followed. *We withdrew without the salute, bringing nineteen of our dead with us and leaving our honor behind; and to this day the salute demanded has not been fired.*

The weakness of Mexico, not the strength of the United States, is all that has prevented our act of war from being turned into the serious fact of war.

If the slaughter of American citizens—men, women and children—by armed troops, if the killing of American soldiers by the soldiers of another nation, if the sacking of our towns is not war, what is it?

The Judge Advocate General of our army says it is war. The Mexicans say it is war. Wilson's *acts* show it is war, but Wilson's *voice* says it is peace.

The Truth is that it is more than war. It is war without honor and murder without reparation. *It is a condition that makes every true citizen ashamed of the spectacle we have become in the eyes of other nations.*

Wilson's course vitalized civil war in Mexico and border war with us. The vacillating and irresolute policy of the present administration has brought humiliation upon this country, both at home and abroad.

We have been at war; we are now at war; many lives have been lost; our honor has been besmirched, and yet the Democratic Party cries to the nation "He kept us out of war," "He has protected me and mine." The fact is that he has *neglected* our greatest treasures—the lives of our citizens and the honor of our country.

It is the world war in Europe, not the acts of the Wilson administration, which has kept us out of international complications that would have sorely tried our courage, and our strength.

Just prior to the outbreak of the war there was forming a combination of European nations to demand of us that we stop the disorder in Mexico, to demand protection of the lives and vast property of European citizens in Mexico, to declare that these European nations would give protection by force of arms if we did not.

What would that have meant? It would have meant that we must adopt a determined policy to enforce order in Mexico, which was the only duty consistent with the stewardship which we assumed under the Monroe Doctrine; or it would have meant war or the surrender of the Monroe Doctrine.

It was the accident of war in Europe which then prevented retribution for the policies of the administration in Mexico.

When the war is over those nations will again press their claims and we will face the consequences of the Wilson policy of watchful waiting.

Have we sunk so low that we can approve such a policy? Have we become so morally flabby that we will tolerate its continuance?

This administration has created war. It has created causes for future serious international friction.

Notes and words and shades of meaning born of rhetoric rather than straightforward patriotic sincerity, have marked the course of our relations with foreign nations.

Force of character, a fair and honorable course, would have closed the debate which facility of language kept open. Force of character would have stopped murder on the high sea.

Does the low estate into which we have fallen among nations make a foundation upon which to build prestige for this country or safety and moral stamina for our children?

It is our tradition to honorably *keep out of* war but not to spinelessly *creep into* war.

Mr. Wilson has not kept us out of war. Mr. Wilson has put us into war.

Mr. Wilson is making war upon the moral fiber of this nation.

"A Nation Which Does Not Protect Its Own Citizens Has Already Begun to Die."
